

TRANSFORMING ASSESSMENT

— STRATEGIES FOR HIGHER EDUCATION —

Accessible Activity Text

Module 1 - Slide: Activity: Reliability and Validity (8.9)

SCENARIO

You ask your Teaching Assistants (TAs) to independently grade the same student assignment. Each TA assesses the student using the same criteria, but arrive at wildly different grading decisions, few of which match the grade you would assign based on the assignment criteria.

EXPLANATION

This activity always hits the board (relatively accurate/valid), but does not hit the same spot consistently (not reliable).
