Module 2 - Slide: Activity: The ICE Model (12.8)

OVERVIEW

The ICE Model is typically represented by three circular arrows. The first (IDEAS) feeds into the second (CONNECTIONS), which in turn feeds into the third (EXTENSIONS).

Here are elements of learning that are commonly affiliated with frames of learning within the ICE Model.

- Ideas
 - Fundamentals/Basic Facts
 - Discrete skills
 - Elemental concepts
- Connections
 - Ability to articulate relationships
 - Relate new learning to what is already known
 - Combine two or more discrete skills
- Extensions
 - Postulate or anticipate outcomes
 - Understand implications of learning
 - Extrapolate to novel situations
