

Working in Play: Planning for a Career in the Recreation and Leisure Industry in Canada – First Edition provides a thorough introduction to the career possibilities in the Recreation and Leisure Industry through use of a detailed explanation of where jobs can be found and job statistics. First and foremost it defines the industry through a job’s perspective lens. The topic is anchored by a historical review of recreation and leisure in Canada and the book includes how to job search, the importance of networking and types of interviews with interview tips for success. Throughout the book are first-person accounts from graduates of Fanshawe College’s Recreation and Leisure Services program on their career journey.
