

Understanding Media & Culture

Resource Description

In this introductory course learners will be introduced to concepts of banking, asset and liability management, as well as investments and risk management. Learners will complete practical exercises to show a demonstrated knowledge of the content, and complete a financial plan for their future as a culminating activity.

Accessibility Statement

Northern College endeavors to make every attempt to be compliant with the *Accessibility for Ontarians with Disabilities Act (AODA)* and the *Canadian Charter of Rights and Freedoms*. Northern is committed to ensuring digital accessibility for people with disabilities. We are continually improving the user experience for everyone, and applying the relevant accessibility standards.

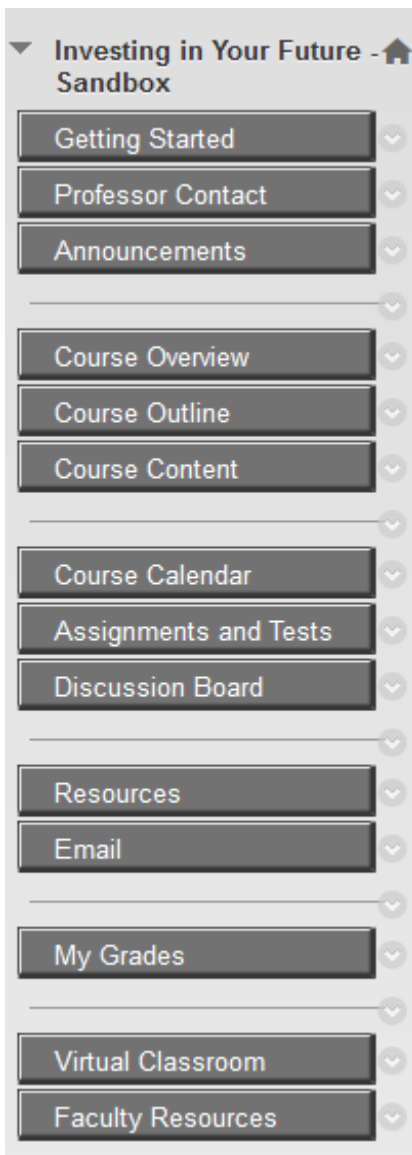

Instructions

The *Understanding Media & Culture* course was originally developed using Blackboard as the LMS. When setting up the course by importing the Common Cartridge note the structure of the course within the LMS. **Some of the material in each menu will have to be updated for each institution using the course material.** When the Common Cartridges unzipped into the LMS note the structure of the course. (See next page for more information.)

Understanding Media & Culture

LMS Structure

Updates will need to be made in following area with your course/institution information.

1. The Getting Started Menu contains information for students how to navigate the course as well as access:
 - IT
 - Resources
 - Services

2. Professor Contact - Update with Instructor Information.
3. Course Overview – has an overview of the course, the Instructor contact information, dates and format of class (asynchronous/synchronous).
4. Course Outline – an updated CSI and Course Outline will need to be posted.
5. Course Content, Assignments and Tests, Discussion Board and Resources – contains material for students.
6. Course Calendar – will be automatically updated as the instructor sets due dates.
7. Virtual Classroom will need to be updated with the link to the classroom virtual meeting place.
8. Faculty Resources – contains the original lesson plans and assignments in a .doc format, as well as the Storyline files used in the creation of the course. (See Next Page).

Understanding Media & Culture

Faculty Resources

Faculty Resources

Faculty Resources contains resources used to build the course. The first six items will assist in the editing and updating of the course.

1 – Course Section Information (CSI)

Here you can see the learning objectives of the course and which VLO's are connected.

2 – Course Blueprint

An outline of the course including Topics, Learning Objectives, Assessments and Resources

3 – Topic Template

Provides a suggested week by week schedule.
